For your consideration

- Why did you select this product? What features were you looking for? What benefits were you hoping to see?
- How do you promote it to your campus community?
- How has your staff reacted to the service? Your faculty and students?
- Has this product met your expectations? If not, where was it lacking?
- What has/will happen to your OPAC?

- What difficulties have you had implementing this service?
- What problems have you had implementing non-Roman scripts?
- What advice would you give to colleagues thinking about implementing such a system
