including new ILMS
- 2007 SMU has 6 schools and starts Term 1 with 5100  
Library and CIT to award DL contract

## UNIVERSITY

To be a premier university, internationally recognised for its world class research and distinguished teaching.

## LIBRARY

To be the intellectual and learning center for the University

## UNIVERSITY

SMU aspires to **generate leading edge research** with global impact as well as to produce broad-based, creative and entrepreneurial leaders for the knowledge-based economy. SMU is committed to an **interactive, participative and technologically-enabled learning experience.**

## LIBRARY

.. the connector to the information resources that are necessary for the growth of research... **The focus will be on providing services and access to information** more than on providing access to large collections of hard materials... The relationship between information technology and the Library is... critical.

President Howard Hunter, August 2005

# Li Ka Shing Library's Goals

- **Research** and Scholarship
- **Teaching** and Learning
- **Community and Place**
- **Technology and Access**

Li Ka Shing Library, November 2005, with revisions

**Library Facade**

**Proximity to museums**

**Popular Lounge Area**

**Collaborative Study Area**

“The placement of the Library at the middle of the campus makes an architectural point about the centrality of ideas to the life of a university.

Students and scholars have varying habits and preferences. Some prefer to work online from home or from their offices. Others prefer a more public space. Others prefer a mixture.

In our future, there always will be a need for some hard materials and a central accessible location for them.”

President Howard Hunter, August 2007

# Importance of Library Building Dean of Students

Dean of Students in the library  
café

- Teaching place – all of us working with students should be in the teaching business
- Librarians - important in the place
- Knowledge is transferred in different ways; needs to be reflected in different spaces
- **The New Library (CSA) is a link between the classroom and the workplace**

# Hosting Campus and Community Events

Open  
Technology  
Space

OB Class

Young  
Entre-  
preneurs

Recruitment Reception

Campus Blood Drive in CSA

# Disconnect Between University Vision and Library Design

**“The library design was very staid** much at odds with our supposed cherished value of innovativeness as the first business school launched in the 21st century. What a major opportunity we have here in terms of location for a modern business/ management library located in the heart of one of Asia’s great cities! With some creative thought, we could well aim to have at least the **best business library in Asia...**”

Faculty member on design committee, LKS 2002

# Place for the Digital Library at SMU

President's Message

To the Library

**Q: What is the most important thing we can do for you?**

**A. Create the best digital library in Asia**

**23 May 2007**

# Place for the Digital Library at SMU

President's Message

To the Library

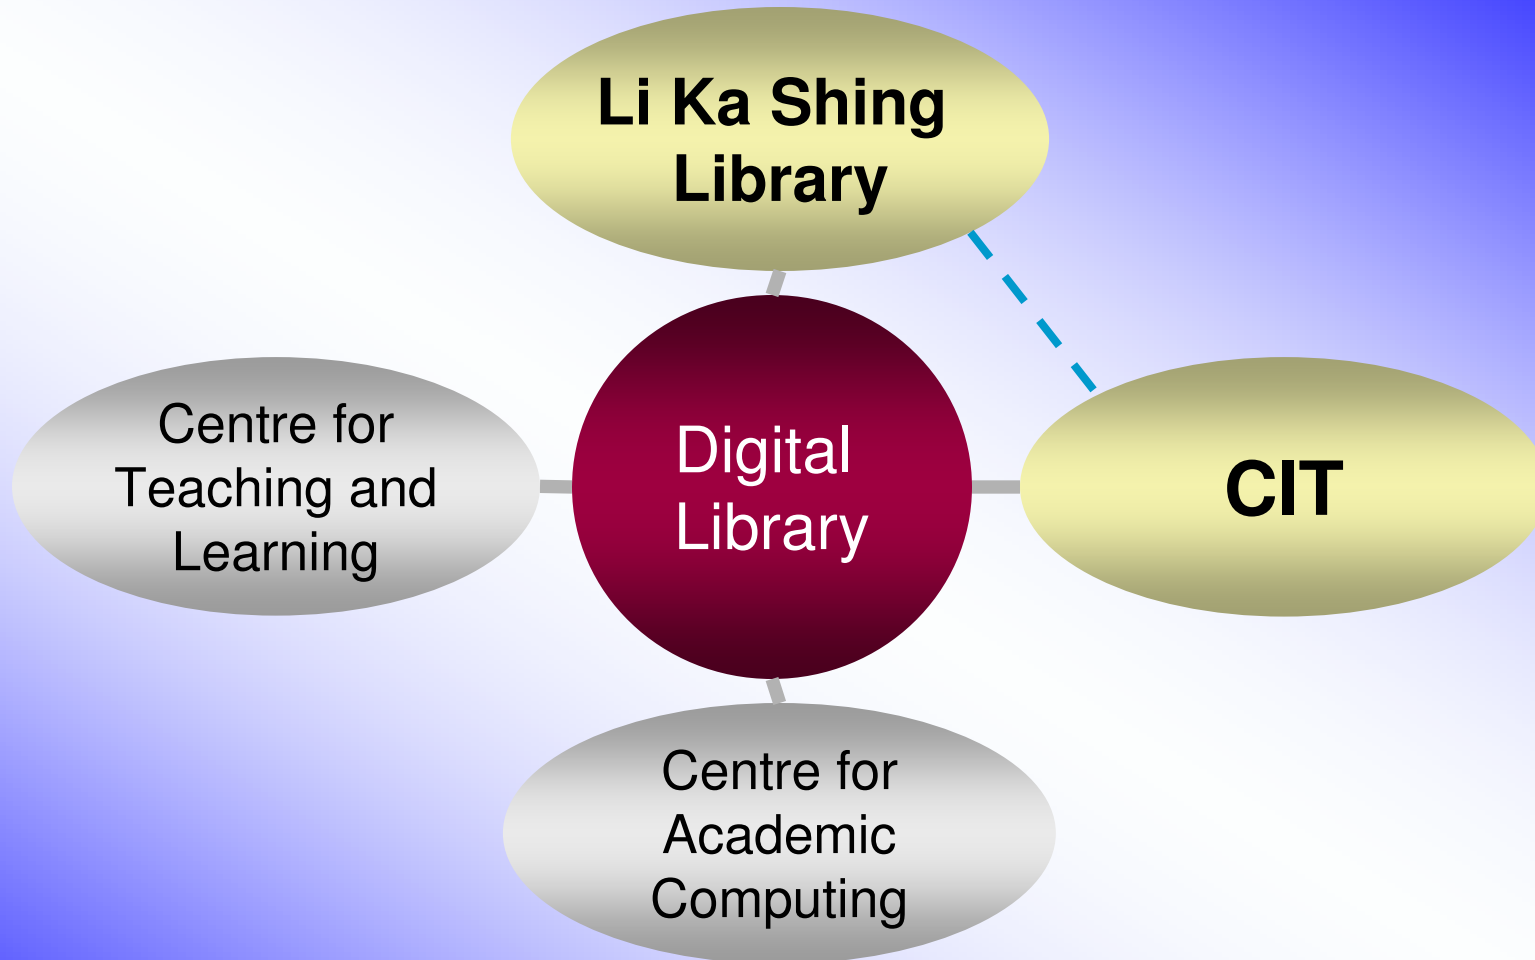

**Q: What is the most important thing we can do for you?**

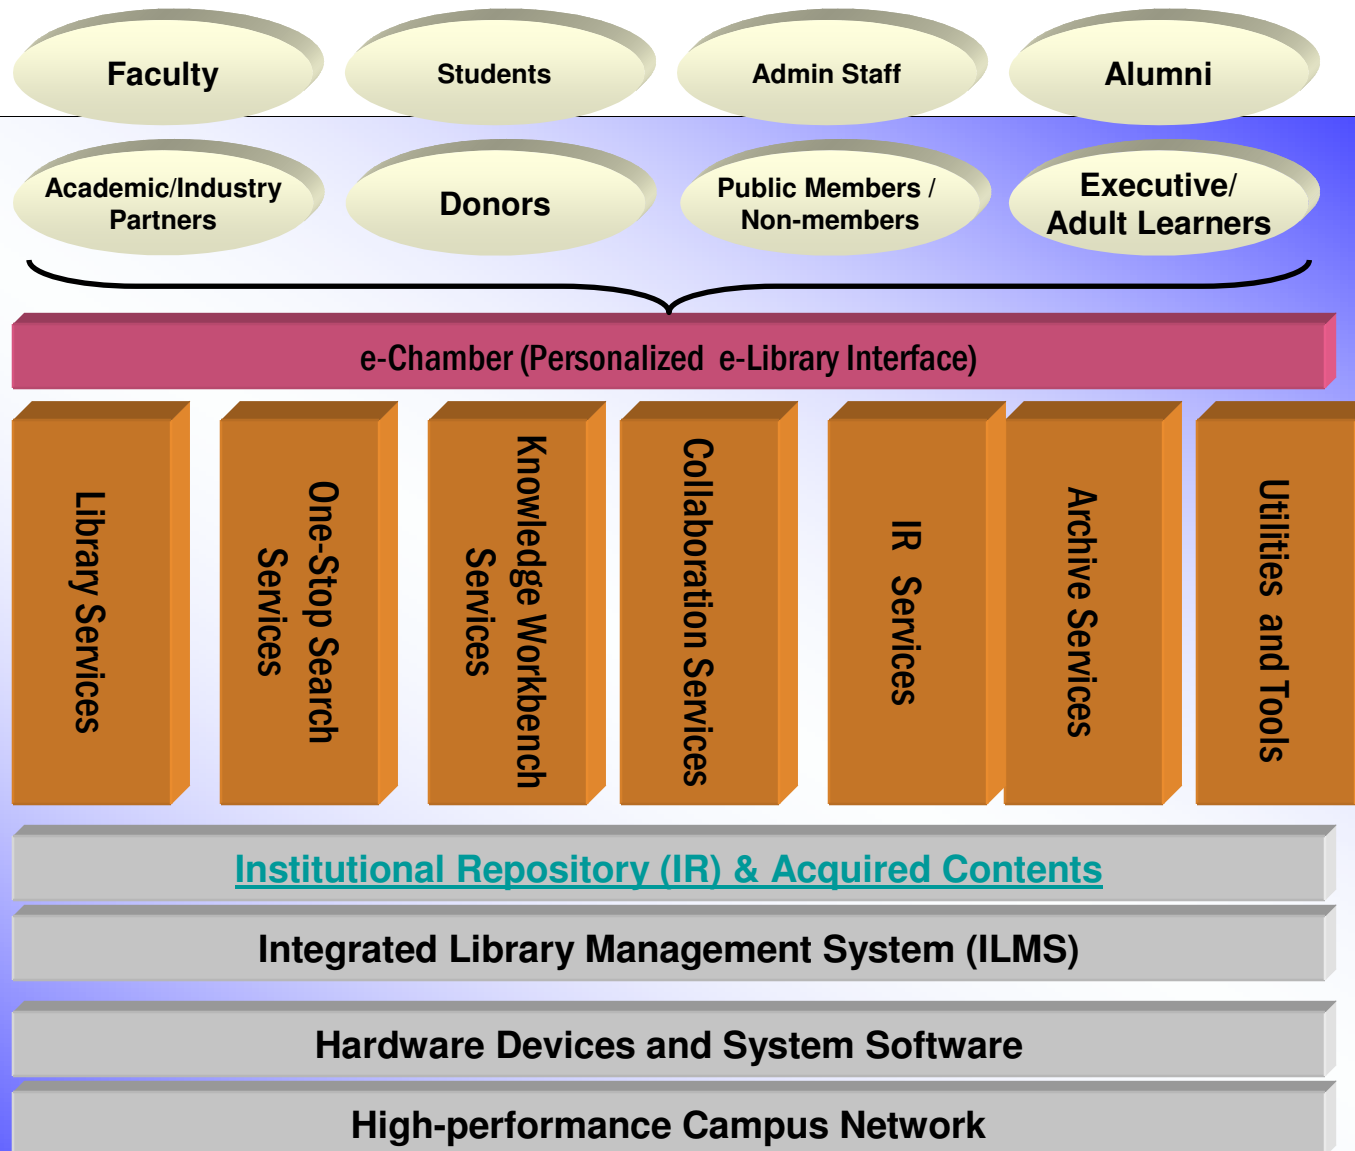

**A. Create the best digital library in Asia FOR SMU**

- Vision
  - A personalized e-Knowledge hub
    - Knowledge is acquired/generated, organized and shared by the users
  - Provides value-added e-services to facilitate research, teaching and learning
  - Supports the University in generating a world class, leading edge research and learning organization
- Mission
  - To bring together digital and non-digital intellectual assets that benefit the University and its stakeholders
- Some Key Characteristics:
  - Interactive
  - Collaborative
  - Personalized

# Our Technology Partners

# Building Block of SMU Digital Library

## Acquired commercial content

Books, journals, databases  
Owned by the Library

## Freely available web resources

Scholarly portals, open access  
materials, open source software

## Special Collections

Archives, manuscripts, rare books  
Corporate videos

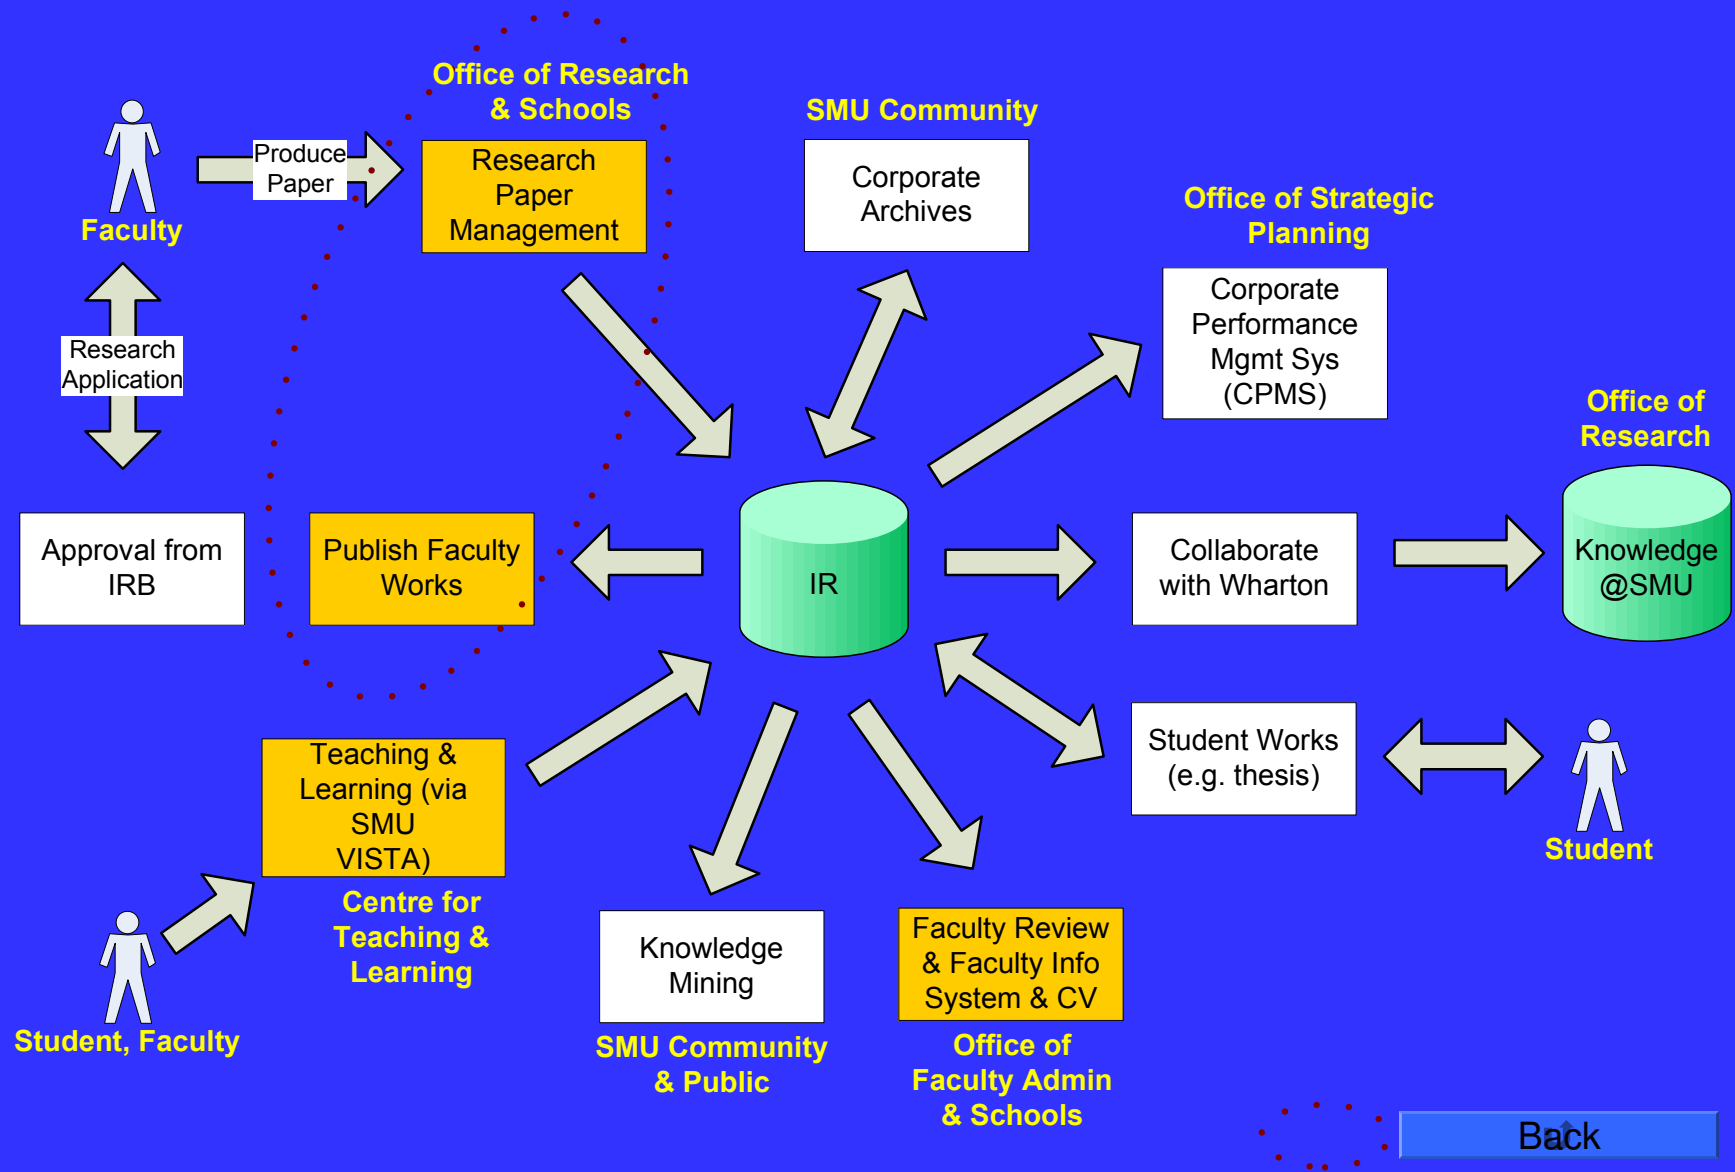

## Research and learning materials

Working papers, learning objects,  
E Portfolios, research data E exams  
Owned by SMU and its community

# Institutional Repository (IR) Overview

Citation software  
Organizer  
Paper creation workflow  
Conferencing  
Statistical packages

## How do we get there?

Select turnkey or open source software especially for IR  
Add staff with better subject and technical skills  
Outsource projects

Support from champions and users  
Cooperation from content stakeholders  
Communication with community

## When does the concept become a reality?
